

# zerobound

## zero allotment boundary wall

***ZEROBOUND is a simplified zero allotment boundary wall system.***

Simplifying the construction process by eliminating components and the need for extra trades and materials to complete a full FRL60/60/60 rating for a boundary or zero allotment wall.

CBMA - SMARTER BUILDING SOLUTIONS

### APPLICATIONS

- Cladding
- Zero Allotment Boundary
- Fire Rated Walls
- Boundary Walls
- Townhouses
- Non Consecutive Builds

### BENEFITS

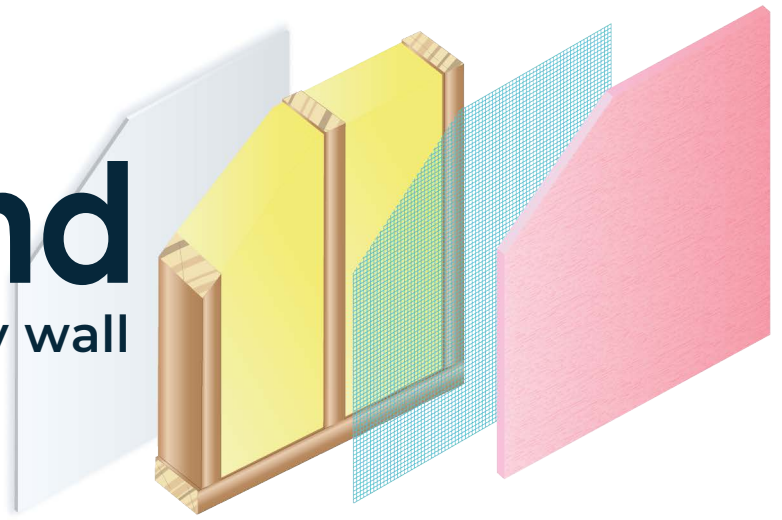

- Non Combustible (AS1530.1)
- FRL 60/60/60 (AS1530.4)
- Impact resistant
- Moisture resistant
- Easy to cut and drill
- Environmentally Friendly

FRL 60/60/60

# zerobound

zero allotment boundary wall

ZEROBOUND - zero allotment boundary wall system, has been designed to simplify the construction process. Fire rated boundary walls are now becoming a simplistic and cost effective solution with Zerobound. Eliminating the need of utilising heavy brick, block or concrete based materials or extra trades. CBMA are simplifying the construction process, without compromising performance.

**IMPACT RESISTANT**  
**MOULD RESISTANT**  
**SIMPLE INSTALL**  
**MINIMAL COMPONENTS**

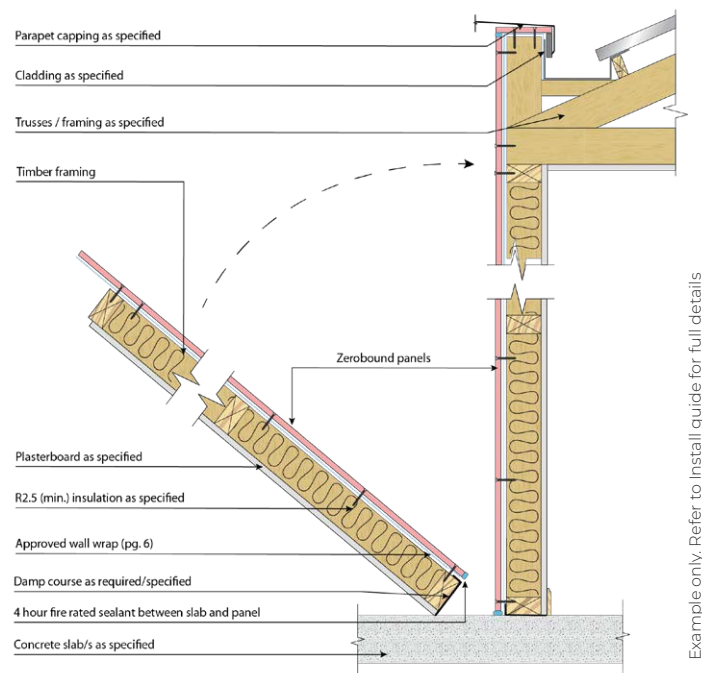

ITEM	COMMENTS
PANEL SIZE	2700X600 coverage
PANEL WEIGHT	17.5kg/m <sup>2</sup>
WALL THICKNESS (NOM.)	114mm
FRL RATING	60/60/60 (WARRINGTON FIRE)

## SHIPLAP SYSTEM

With CBMA's innovative shiplap system, putting the Zerobound wall together cannot be simpler. The innovative system allows the panels to do all the work and eliminate the need for extra expensive components.

## FIRE TESTED

ZEROBOUND has been tested and assessed for fire and acoustic ratings by Warrington Fire, CSIRO and Cogent Acoustics ensuring that the system complies to all NCC and BCA requirements.

## ZERO ALLOTMENT WALLS | FIRE RATED BOUNDARY WALLS LIGHTWEIGHT CLADDING
